S.No	Description	Quantity
1.	Providing and laying of roof waterproofing with APP. APP membrane involves providing a durable, heat-applied waterproofing layer over the roof surface to prevent water seepage and leakage. The APP membrane is torch-applied after proper surface preparation and priming, forming a strong, weather-resistant barrier that protects the roof from moisture, UV exposure, and environmental damages. This treatment enhances the service life of the roof, minimizes maintenance requirements, and ensures long-term water proofing performance. (on roofing sheets)	6800 Sft

Note: The final quantity may vary based on our allocated budget and requirement.
